One-Day Grain Grading Workshop for Sorghum, Corn, & Soybean Handlers & Producers

To help grain handlers in recognizing features of grain that affect its grade, the Texas A&M AgriLife Extension Service will hold a one-day workshop at the Texas A&M AgriLife Research and Extension Center in Corpus Christi. The workshop will be offered on Tuesday June 7th and will run from 9:00 a.m. until 4:30 p.m. Participants will learn about the importance of grading grain, grain grading standards, proper sampling techniques, how to identify the different types of damage that occur and their potential impacts on grade and feeding value. Participants work hands-on with grain samples to enhance the learning experience.

The grain grading workshop is sponsored by Texas A&M AgriLife Extension Service, RMA-USDA, and Texas Farm Credit. Registration is open to anyone interested in grain grading.

The cost of the one-day workshop is $75.00 per participant. Pre-registration is required since registration will be limited to 60 participants.

Six Certified Crop Advisor Continuing Education Units in Crop Management are being offered. BQA credit will be given to feedlot employees.
