

TEXAS ROLLING PLAINS I

FOREWORD

The enterprise budgets for Rollings Plains I are based on yields as shown on form 05000600. Budgets for irrigated crops in Rolling Plains I area were developed only for alfalfa and coastal since almost no irrigation is used on other crops.

Pertinent facts include the following: the "high level" managers use mostly 6-row equipment and farm 1,000 acres of cropland, while the "typical" manager uses 4-row equipment and farms about 600 acres of cropland. Budgets for irrigated crops in Rolling Plains I are based on sprinkler irrigation.

The following customary rent arrangements were used:

Cotton—One-fourth of production and landlord pays one-fourth of insecticide, fertilizer and ginning.

Vegetables—One-fifth production and landlord pays one-fifth of insecticide, fertilizer, fungicide, harvesting and processing.

All Other Crops—One-third of production and landlord pays one-third of fertilizer and harvest. Landlord's share of hay baling is based on 30¢ per bale when renter owns and operates his own equipment.

Income from government payments is shown after the landlord's share has been deducted for rent. For information on groundwater resources and soils for these areas, consult the Area Resources Section of the Rolling Plains Economic Program Report.

TEXAS ROLLING PLAINS I

Assumed Prices Paid And Received By Farmers

Item	Unit	Price
Prices Paid		•
Seed:		
Cotton (Di-Syston treated)	cwt.	¢ 10 50
Cotton (delinted)	cwt.	\$ 19.50
Grain Sorghum	cwt.	15.00
Guar	cwt.	21.00
Wheat (cleaned and treated)	bu.	9.00
Alfalfa		2.50
Forage Sorghum Ensilage	cwt.	#1 40.00
Sudan	cwt.	21.00
Custom Rates:	cwt.	20.00
Combining wheat		
Combining grain sorghum	ac.	3.00 <u>2</u>
Combining grain sorghum	ac.	3.50
