Extension programs serve people of all ages regardless of socioeconomic level, race, color, sex, religion, disability, or national origin.
The Texas A&M University System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating

A member of The Texas A&M University System and its statewide Agriculture Program

ACKNOWLEDGMENTS

The Texas A&M AgriLife Extension Service is pleased to provide the enclosed information. Agriculture continues to play a major role in the economic development of the State of Texas. We are committed to providing continued support for this important industry.

We would like to thank the numerous producers, agribusiness leaders, County Extension Agents, Extension Program Councils, Extension Specialists, Extension Economists and District Administrators, who contributed to this report. Their assistance in gathering and estimating the annual production value of agricultural commodities produced in each Texas county is greatly appreciated.

In addition, Caroline S. Gleaton, Office Associate, provided invaluable support throughout the surveying and reporting process. Dr. John Robinson, Professor and Extension Economist, supervised and directed the report. Kassie Kampen, Graduate Assistant, performed the data tabulation and analysis.

ABOUT THE REPORT

Estimated agricultural production values are intended only as general guidelines to indicate agricultural activity and economic impact. The enclosed data are for educational purposes only and are subject to revision.

The data on the estimated value of agricultural production and related items were prepared from county projections provided in January by County Extension Agents, Extension Program Councils, and Extension Economists. Estimates made in January are subject to price changes and growing and harvesting conditions for the remainder of the season. Government payments are not included.

Production values reflect estimates by crop season, livestock marketing times, and average market price or Commodity Credit Corporation loan rate, whichever is higher. The value of commodities used on the farm is included. As a result, production values normally total slightly greater than cash receipts.

Real production value is current production value adjusted for inflation with 2005 as the base year. This value was developed using the Council of Economic Advisers' most recent GDP implicit price deflators (*Economic Indicators*, Council of Economic Advisers, U.S. Government Printing Office, January 2014).

Economic impact values were developed using IMPLAN output multipliers (Minnesota IMPLAN Group, Inc. 2010. IMPLAN Professional Version 3.0. Stillwater, Minnesota). These values estimate the state economic impact of the listed agricultural commodities from farm gate through the supply chain.

Some listed commodities are aggregates of lesser categories. "Melons" includes cantaloupes and honeydews. "Nursery" includes bedding and potted plants, cut flowers, stock, and turf. "Other Crops" includes sprigs, legume seed, and grass seed. "Other Poultry" includes pullets, quail, and other fowl. "Other Beef" includes beef breeder cattle, beef and dairy calves, value-added by stocker cattle, and slaughter cattle. "Hogs" includes hogs and feeder pigs. "Timber" includes lumber and firewood.

Estimated Value of Agricultural Production and Related Items

- Percentage of Total Value by Top Ranked Commodities
- Production Value by Category
- District 10: Estimated Value of Agricultural Production and Related Items
- Top Ranked Commodities by Economic Impact
- Counties in Extension District 10 Ranked by Estimated Total Value
- County Estimated Values of Agricultural Production and Related Items

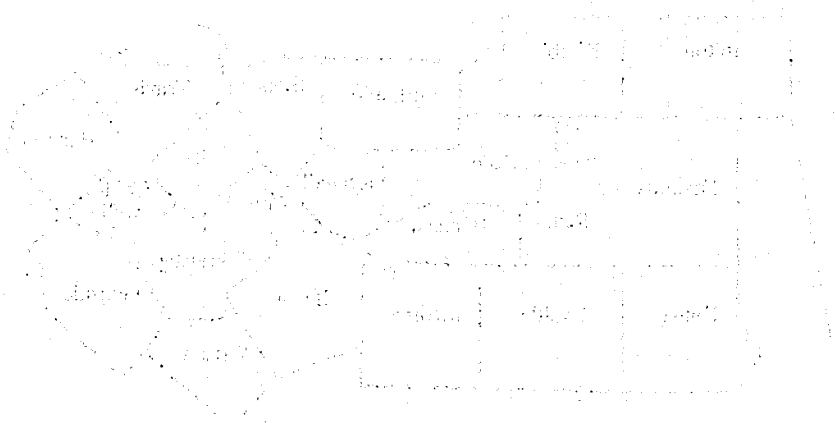

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In addition, the document highlights the need for regular audits. By conducting periodic reviews, any discrepancies can be identified and corrected promptly. This proactive approach helps in maintaining the integrity of the financial information.

Furthermore, it is advised to use standardized accounting practices. This includes following established guidelines for recording assets, liabilities, and equity. Consistency in reporting is crucial for providing a clear and reliable picture of the organization's financial health.

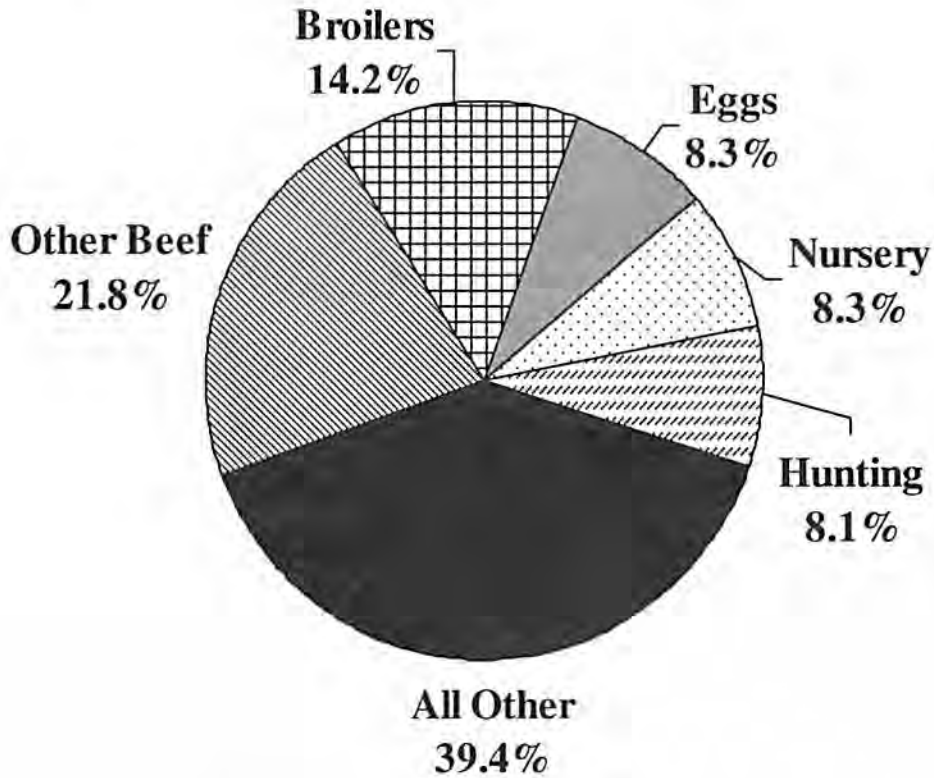

The document also touches upon the role of technology in modern accounting. Utilizing software solutions can streamline the recording process and reduce the risk of human error. However, it is important to ensure that the chosen software is secure and compliant with relevant regulations.

Finally, the document concludes by stating that good accounting practices are essential for the long-term success of any business. By adhering to these principles, organizations can make informed decisions and build a strong financial foundation.

FOR EDUCATIONAL USE ONLY

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income.

The second part of the document provides a detailed breakdown of the company's revenue for the quarter. It shows that sales have increased by 15% compared to the previous quarter, which is a significant achievement. This growth is attributed to several factors, including a new marketing campaign and improved customer service.

The third part of the document addresses the company's expenses. It notes that while sales have increased, expenses have also risen, primarily due to the marketing campaign and increased operational costs. However, the overall profit margin remains stable, indicating that the company is effectively managing its costs.

The fourth part of the document discusses the company's financial position at the end of the quarter. It shows that the company has a strong cash flow and is well-positioned to meet its obligations. The balance sheet is in good health, and the company's debt-to-equity ratio is within acceptable limits.

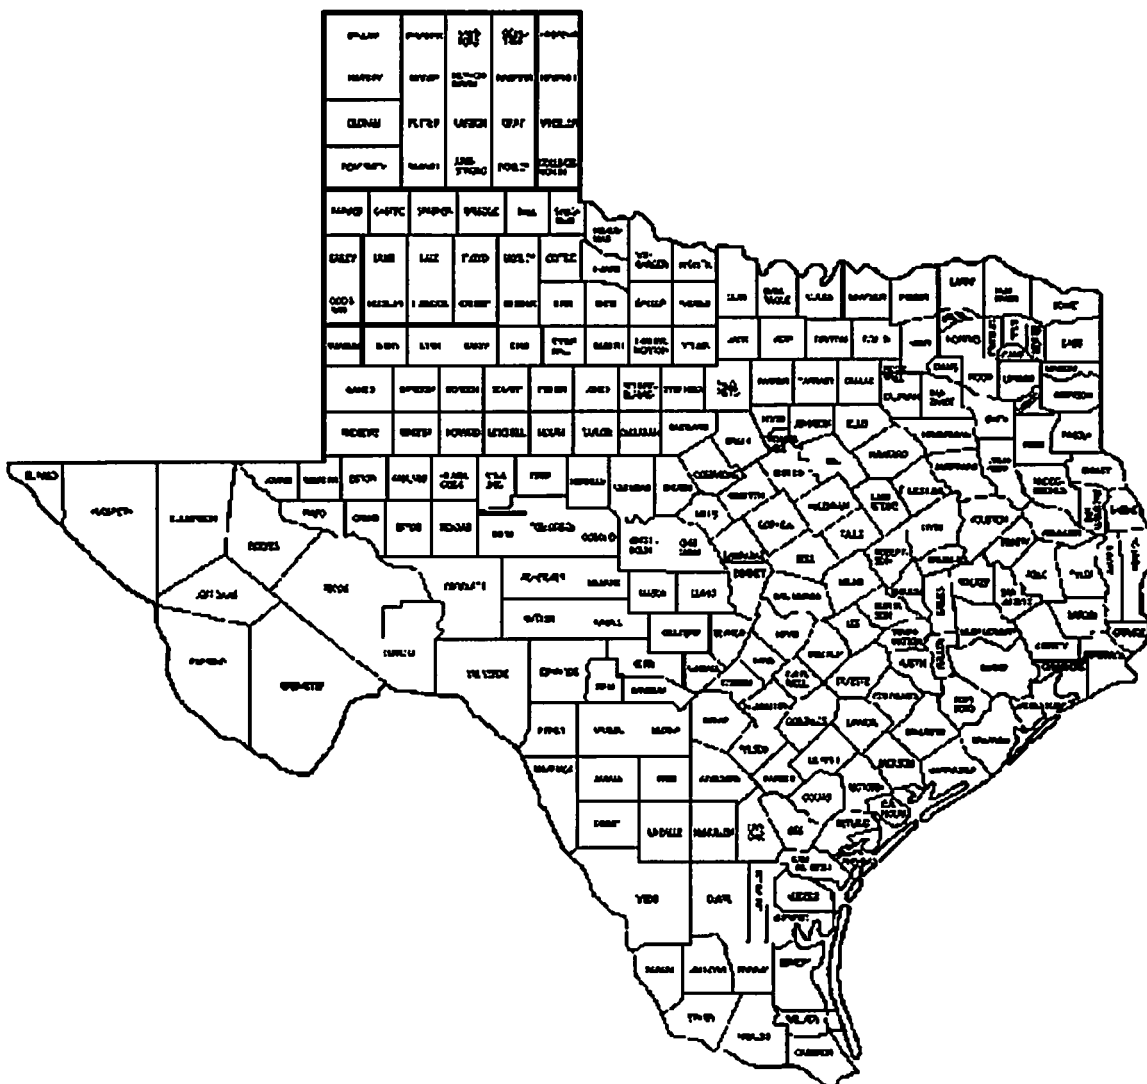

The fifth part of the document provides a summary of the company's performance and outlook for the next quarter. It highlights the company's strengths and areas for improvement, and expresses confidence in the company's ability to continue its growth trajectory.
