Extension programs serve people of all ages regardless of socioeconomic level, race, color, sex, religion, disability, or national origin.
The Texas A&M University System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating

A member of The Texas A&M University System and its statewide Agriculture Program

ACKNOWLEDGMENTS

The Texas A&M AgriLife Extension Service is pleased to provide the enclosed information. Agriculture continues to play a major role in the economic development of the State of Texas. We are committed to providing continued support for this important industry.

We would like to thank the numerous producers, agribusiness leaders, County Extension Agents, Extension Program Councils, Extension Specialists, Extension Economists and District Administrators, who contributed to this report. Their assistance in gathering and estimating the annual production value of agricultural commodities produced in each Texas county is greatly appreciated.

In addition, Caroline S. Gleaton, Office Associate, provided invaluable support throughout the surveying and reporting process. Dr. John Robinson, Professor and Extension Economist, supervised and directed the report. Kassie Kampen, Graduate Assistant, performed the data tabulation and analysis.

ABOUT THE REPORT

Estimated agricultural production values are intended only as general guidelines to indicate agricultural activity and economic impact. The enclosed data are for educational purposes only and are subject to revision.

The data on the estimated value of agricultural production and related items were prepared from county projections provided in January by County Extension Agents, Extension Program Councils, and Extension Economists. Estimates made in January are subject to price changes and growing and harvesting conditions for the remainder of the season. Government payments are not included.

Production values reflect estimates by crop season, livestock marketing times, and average market price or Commodity Credit Corporation loan rate, whichever is higher. The value of commodities used on the farm is included. As a result, production values normally total slightly greater than cash receipts.

Real production value is current production value adjusted for inflation with 2005 as the base year. This value was developed using the Council of Economic Advisers' most recent GDP implicit price deflators (*Economic Indicators*, Council of Economic Advisers, U.S. Government Printing Office, January 2014).

Economic impact values were developed using IMPLAN output multipliers (Minnesota IMPLAN Group, Inc. 2010. IMPLAN Professional Version 3.0. Stillwater, Minnesota). These values estimate the state economic impact of the listed agricultural commodities from farm gate through the supply chain.

Some listed commodities are aggregates of lesser categories. "Melons" includes cantaloupes and honeydews. "Nursery" includes bedding and potted plants, cut flowers, stock, and turf. "Other Crops" includes sprigs, legume seed, and grass seed. "Other Poultry" includes pullets, quail, and other fowl. "Other Beef" includes beef breeder cattle, beef and dairy calves, value-added by stocker cattle, and slaughter cattle. "Hogs" includes hogs and feeder pigs. "Timber" includes lumber and firewood.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This not only helps in tracking expenses but also ensures compliance with tax regulations. The second part of the document provides a detailed breakdown of the company's revenue for the quarter. It shows a steady increase in sales, particularly in the electronics and software sectors. The third part of the document outlines the company's financial goals for the next year. It includes a budget for various departments and a target for overall profit. The fourth part of the document discusses the company's marketing strategy. It highlights the effectiveness of digital marketing campaigns and the need for continued investment in this area. The fifth part of the document provides a summary of the company's performance over the past year. It notes the challenges faced and the successes achieved. The sixth part of the document discusses the company's plans for expansion into new markets. It includes a detailed analysis of the potential risks and opportunities. The seventh part of the document provides a list of key personnel and their roles. It also includes a list of the company's major clients and partners. The eighth part of the document discusses the company's commitment to environmental sustainability. It outlines the steps being taken to reduce the company's carbon footprint. The ninth part of the document provides a list of the company's products and services. It includes a brief description of each item and its price. The tenth part of the document discusses the company's future outlook. It includes a list of the company's long-term goals and a list of the company's key strengths.

The following table shows the company's revenue for the quarter. It is broken down by department and product line. The total revenue for the quarter was \$1,200,000. The electronics department contributed \$400,000, the software department contributed \$350,000, and the services department contributed \$450,000. The company's profit for the quarter was \$200,000. The company's marketing budget for the next year is \$150,000. The company's financial goals for the next year include a 10% increase in revenue and a 5% increase in profit. The company's marketing strategy for the next year includes a focus on digital marketing and social media. The company's financial goals for the next year are based on a number of assumptions, including a stable economy and continued growth in the company's key markets. The company's plans for expansion into new markets are based on a number of factors, including the potential for growth and the company's resources. The company's commitment to environmental sustainability is based on a number of factors, including the company's values and the need to attract and retain top talent. The company's list of products and services is based on a number of factors, including the company's strengths and the needs of its customers. The company's future outlook is based on a number of factors, including the company's strengths and the opportunities available in its key markets.
