

# TEXAS A&M AGRI LIFE EXTENSION

## District 7

Estimated Value of Agricultural  
Production and Related Items,  
2010 – 2013  
2014 Projected  
State and Extension Districts  
May 2014

Kassie Kampen  
Graduate Assistant – Extension

John Robinson  
Extension Economist – Cotton Marketing

Agriculture and Natural Resources • Family and Consumer Sciences • 4-H and Youth Development • Community Development

Extension programs serve people of all ages regardless of socioeconomic level, race, color, sex, religion, disability, or national origin.  
The Texas A&M University System, U.S. Department of Agriculture, and the County Commissioners Courts of Texas Cooperating

A member of The Texas A&M University System and its statewide Agriculture Program

## **ACKNOWLEDGMENTS**

**The Texas A&M AgriLife Extension Service is pleased to provide the enclosed information. Agriculture continues to play a major role in the economic development of the State of Texas. We are committed to providing continued support for this important industry.**

**We would like to thank the numerous producers, agribusiness leaders, County Extension Agents, Extension Program Councils, Extension Specialists, Extension Economists and District Administrators, who contributed to this report. Their assistance in gathering and estimating the annual production value of agricultural commodities produced in each Texas county is greatly appreciated.**

**In addition, Caroline S. Gleaton, Office Associate, provided invaluable support throughout the surveying and reporting process. Dr. John Robinson, Professor and Extension Economist, supervised and directed the report. Kassie Kampen, Graduate Assistant, performed the data tabulation and analysis.**

## **ABOUT THE REPORT**

Estimated agricultural production values are intended only as general guidelines to indicate agricultural activity and economic impact. The enclosed data are for educational purposes only and are subject to revision.

The data on the estimated value of agricultural production and related items were prepared from county projections provided in January by County Extension Agents, Extension Program Councils, and Extension Economists. Estimates made in January are subject to price changes and growing and harvesting conditions for the remainder of the season. Government payments are not included.

Production values reflect estimates by crop season, livestock marketing times, and average market price or Commodity Credit Corporation loan rate, whichever is higher. The value of commodities used on the farm is included. As a result, production values normally total slightly greater than cash receipts.

Real production value is current production value adjusted for inflation with 2005 as the base year. This value was developed using the Council of Economic Advisers' most recent GDP implicit price deflators (*Economic Indicators*, Council of Economic Advisers, U.S. Government Printing Office, January 2014).

Economic impact values were developed using IMPLAN output multipliers (Minnesota IMPLAN Group, Inc. 2010. IMPLAN Professional Version 3.0. Stillwater, Minnesota). These values estimate the state economic impact of the listed agricultural commodities from farm gate through the supply chain.

Some listed commodities are aggregates of lesser categories. "Melons" includes cantaloupes and honeydews. "Nursery" includes bedding and potted plants, cut flowers, stock, and turf. "Other Crops" includes sprigs, legume seed, and grass seed. "Other Poultry" includes pullets, quail, and other fowl. "Other Beef" includes beef breeder cattle, beef and dairy calves, value-added by stocker cattle, and slaughter cattle. "Hogs" includes hogs and feeder pigs. "Timber" includes lumber and firewood.

# 1. Introduction

The purpose of this study is to investigate the effects of the proposed system on the performance of the system.

The study is organized as follows. Section 2 describes the system architecture and the proposed system.

Section 3 presents the experimental setup and the results of the experiments.

Section 4 discusses the conclusions and the future work.

Section 5 concludes the paper.

The paper is organized as follows.

The paper is organized as follows.

The paper is organized as follows.

The paper is organized as follows.

# Impact of Agricultural Production and Agribusiness on the Texas Economy, 2013

Percentage of Total Economic Impact by Minor Category\*

**Total = \$49.8 billion**

\*Estimates are based on output multipliers for agricultural commodities from farm gate back through supply chain within Texas. (Minnesota IMPLAN Group, Inc. 2010. IMPLAN Professional Version 3.0 Stillwater, Minnesota)
